Department of Artificial Intelligence & Data Science

First Quarter E – Newsletter -2024

Message from: Principal & Director

Dr. Anand Deshpande

An Institute is assessed on the basis of the Academic ambiance and outcome of the system in terms of performance and achievements of the students and staff in teaching-learning, research, innovation, Placements, and results. AITM has been known for its Academic credentials coupled with holistic growth in all directions. The new generation of competent minds must imbibe knowledge and practically they should comprehend the art of balancing brilliant technical, managerial communication, and interpersonal skills, nest. The Institute has achieved a series of milestones with the help of brilliant students, dedicated staff, and encouraging Management. We promise a wonderful experience of rich Academic and Excellent facilities coupled with professional practices and blended with an affectionate concern for our Students.

Message from: HOD

Prof. Sagar Birje

Welcome to the Department of Artificial Intelligence and Data Science. AI and DS is the skill of the century and has had a massive impact on the society. AI and DS have seen enormous progress and

significant breakthrough innovations in practically every field over the last decade. Keeping this in mind, the AI and DS Department was established in the year 2020 with the aim of providing leadership in the field of AI & DS Engineering with an intake of 60 students. The Department is focused on delivering innovative and high-quality technical education in the field of Artificial Intelligence and Data Science.

❖ Institute Vision and Mission

Vision:

To become a premier institute committed to academic excellence and global competence for the holistic development of students.

Mission:

M1: Develop competent human resources, adopt outcome-based education (OBE) and Implement cognitive assessment of students.

M2: Inculcate the traits of global competencies (such as domain expertise, Accountability, ethics, problem solving ability, communication skills, leadership Qualities and life-long learning) amongst the students.

M3: Nurture and train our students to have domain knowledge, develop the qualities of global professionals and to have social consciousness for holistic development.

❖ Department Vision and Mission

Vision:

To deliver a quality and responsive education in the field of artificial intelligence and data science emphasizing professional skills to face global challenges in the evolving IT paradigm.

Mission:

M1: Leverage multiple pedagogical approaches to impart knowledge on the

current and emerging AI technologies.

M2: Develop an inclusive and holistic ambiance that bolsters problem solving, cognitive abilities and critical thinking.

M3: Enable students to develop trust worthiness, team spirit, understanding law-of-the-land, social behavior to be a global stake holder

several students were honored with awards and prizes for their outstanding contributions.

❖ Department Achievement.

✚ Meta Hack Event

The Management, Administrator, Principal, Staff, and students of Angadi Institute of Technology and Management-AITM, Belagavi extend our warmest congratulations to the exceptionally talented students of the 5th Semester students of the Artificial Intelligence and Data Science Engineering department.

Vaishnavi B., Sayeed Amaan, Shreebodh I., Yash Mirashi, and Pratik S. have made us immensely proud by securing 1st place in the Meta Hack Event organized by KLE DR.M S Sheshgiri College of Engineering and Technology, Belagavi.

Their outstanding achievement reflects not only their dedication and hard work but also the high standards of education and innovation fostered at Angadi Institute of Technology and Management.

Congratulations 🌸🌸🌸 to the students for representing AITM with enthusiasm and skill at the event.

TECHVENTURE FIESTA 2024 – The Prestigious National Level Event

In a remarkable achievement, students from the Department of Artificial Intelligence and Data Science at Angadi Institute of Technology and Management, Belagavi, have emerged victorious at the prestigious National Level event "TECHVENTURE FIESTA-2024." The event, organized by Jain College of Engineering, Belagavi, specifically by the Department of Computer Science & Engineering and MCA, witnessed intense competition and innovation.

Miss. Deepa B., Mr. Ankit B., and Mr. Rohit K., all 5th semester students, showcased their exceptional skills and ingenuity in the PROTOTYPING event. Their outstanding performance and innovative approach not only set them apart but also secured the coveted First Prize in this highly competitive category.

The Management, Administrator, Principal, Staff, and students of AITM extend heartfelt congratulations to the winners for their stellar achievement. Their dedication, hard work, and exemplary performance reflect the commitment to excellence that defines our institution.

PRAXIS-2K24 - A National Level Technical Fest

Angadi Institute of Technology and Management- AITM is proud to announce the outstanding achievement of Mr. Shreebodh Inamdar and Mr. Pratik Chitti, 5th-semester students from the Department of Artificial Intelligence and Data Science.

They participated in the PRAXIS-2K24 a National Level Technical Fest and emerged triumphant by clinching the 1st Prize in the challenging Zest: Game of Logic competition held at KLE Chikodi.

Their remarkable success not only reflects their individual brilliance but also exemplifies the academic excellence and commitment to innovation fostered at AITM. This achievement is a testament to the dedication of the students, the support of the faculty, and the nurturing academic environment at AITM.

INDUSTRIAL VISIT TO AKASHVANI, DHARWAD AND HIGH-POWER TRANSMITTER OF AKASHVANI AT SATUR, DHARWAD

The department of Artificial Intelligence and Data Science arranged an Industrial Visit to Akashvani, Dharwad and High-Power Transmitter of Akashvani at Satur, Dharwad. It offered students an enriching experience in broadcasting and communication technology. This site provides an opportunity to understand the intricacies of radio transmission, audio engineering, and the role of public broadcasting in reaching diverse communities. Students gain insight into the technical, creative, and operational aspects of broadcasting and see firsthand how programs are created, transmitted, and aired to serve the public.

During the visit, students observed various automated system. The interaction with professionals from the industry offered valuable insights into how advanced technologies are revolutionizing traditional processes. This experience helped bridge the gap between classroom-based theoretical learning and practical industrial implementation.
